GRAND OPENING EDITION

RYAN YOUNG PRESIDENT | YOUNG TRUCKS

The opening of our new Canton facility marks an exciting milestone in the Young Trucks story. More than just a new building, this investment reflects our commitment to delivering an even better experience for our customers, supporting our employees, and strengthening our presence in the communities we serve.

We sat down with Young Trucks President, Ryan Young, to discuss what this new facility means for our customers, our team, and the future of the company. From enhanced service capabilities to thoughtful design features that improve efficiency behind the scenes, Ryan shares his perspective on the vision behind the project and what lies ahead for Young Trucks.

What improvements will customers notice immediately when they walk in?

Customers will notice right away that the entire experience was designed around efficiency and comfort. From the larger, more modern customer areas to the improved parts and service flow, everything is easier to navigate and built to better support our customers' time. The expanded shop capacity and updated technology also allow our team to work more efficiently behind the scenes.

How does this facility strengthen our presence in the Canton community?

This facility is a major investment in Canton and the surrounding trucking community. It shows our long-term commitment to supporting local businesses, drivers, and fleets with the resources they need to stay moving. We're proud to continue growing in a community that has supported Young Trucks for many years.

How does this new location make service faster or more convenient?

The new facility allows us to handle more trucks at one time while improving workflow throughout the shop. That means reduced wait times, faster turnaround, and better communication with customers. We also designed the building with easier access and improved parking to make visits more convenient from start to finish.

What does this new facility represent for the future of Young Trucks?

This facility represents growth, stability, and our commitment to the future of the transportation industry. It gives us the ability to better support our customers today while preparing for continued expansion, new technology, and the evolving needs of commercial trucking.

What's one feature of the building most people don't realize is a big deal?

One thing people may not immediately realize is how much the layout improves efficiency behind the scenes. The design of the shop, parts department, and service areas were intentionally planned to reduce downtime and improve how quickly our team can respond to customer needs. And not only is the layout more efficient we were forced to streamline our processes to match the new layout. I know I'm going beyond one feature but one hidden physical feature is 7 miles of piping under the shop floor to keep our Techs comfortable in the winter!

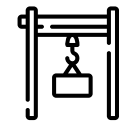

What did it mean to see the community, customers, and partners show up?

Seeing the support from the community, customers, partners, and employees during the grand opening was incredibly meaningful. It reinforced the relationships we've built over the years and reminded us that this facility is more than just a building — it's an investment in the people and businesses we serve every day. I was reminded of how many genuinely good people surround this business and love how we all support each other.

TOP 10 THINGS TO KNOW ABOUT THE NEW FACILITY

1

ADVANCED SERVICE EQUIPMENT

Four-post lift and crane for greater service capability.

6

IMPROVED SALES & FINANCE FLOW

A better space for sales and finance customers going through the process.

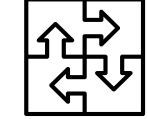

2

MORE WAREHOUSE SPACE

More room for inventory and faster fulfillment.

7

INTEGRATED PARTS & SERVICE

Improved flow between departments for efficiency.

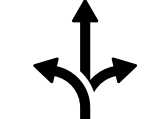

3

MORE SERVICE CAPACITY

More bays to handle higher volume and turnaround.

8

IMPROVED PARKING FLOW

Now with more parking and designed to fit the flow of tractor and trailer parking.

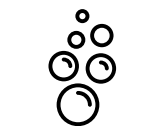

4

UPGRADED CUSTOMER LOUNGE AND WAITING AREAS

More space, added comfort, vending, and desk areas for customers.

9

TRUCK WASH

On-site wash for added convenience.

5

INDOOR SHOWROOM FOR TRUCK DELIVERIES

Dedicated indoor space for truck deliveries.

10

SAME GREAT PEOPLE

The people you trust, in a better facility.

Built to Keep You Moving.

For decades, Freightliner has been a trusted name in commercial trucking, delivering innovative, reliable, and efficient vehicles designed to handle the demands of the road. From long-haul transportation to vocational applications, Freightliner trucks are engineered for performance, durability, and driver comfort.

At Young Trucks, we're proud to support Freightliner owners with **genuine parts, expert service, and a team** that understands what it takes to keep your fleet operating at its best. Whether you're maintaining a single truck or managing an entire fleet, Freightliner continues to set the standard for productivity and uptime.

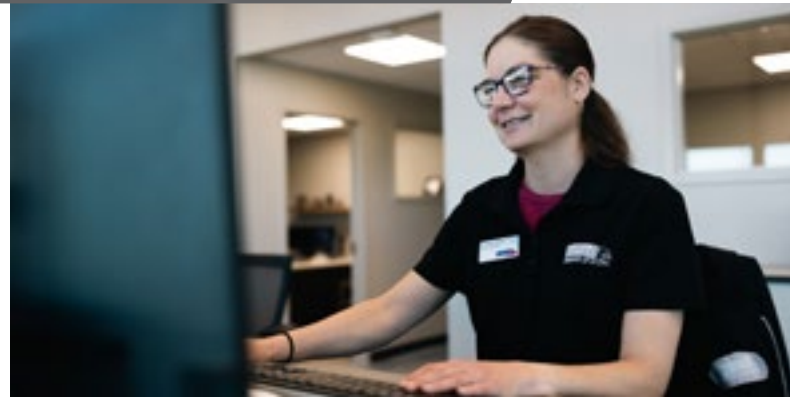

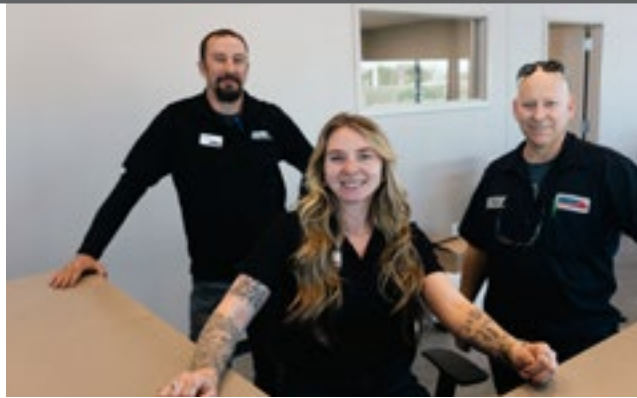

GRAND OPENING EDITION

After years of planning and months of construction, the new Young Trucks facility officially opened its doors. From the Grand Opening celebration to the first customers, deliveries, and service appointments, these images capture the beginning of an exciting new chapter for our team and the customers we serve.
